**Concentrated, all-purpose non-ionic wetting agent.
Maximizes water management programs.**

Active Ingredients:

Non-ionic Surfactant 87.6%
Inert Ingredients 12.4%
Total 100.0%

Keep out of Reach of Children

CAUTION

Read All Directions Before Using

DIRECTIONS FOR USE

Application timing and rates of **LESCO-Wet Plus** will depend upon the time of year, soil type, thatch depth, and varying local conditions.

Fine Turf, Lawns, Fairways, Greens, Tees, and Athletic Fields: Initially apply 4-8 fl. oz./1000 sq. ft. before moisture stress is expected. Use either a conventional sprayer or an irrigation injection system. If sprayed, irrigate treated areas thoroughly to incorporate the active ingredient into the soil solution. Monthly maintenance rate of 1-4 fl. oz./1000 sq. ft. can be applied as necessary.

For existing in-season problems, initially apply 4-8 fl. oz./1000 sq. ft. and irrigate thoroughly after treatment. The preventative application treatment schedule (above) can then be followed starting 2 to 4 weeks after the initial application.

Greenhouse, Nursery Stock, and Landscape Plantings: Apply 8.0 to 16.0 fl. oz. **LESCO-Wet Plus** in 10-20 gallons of water per 1000 sq. ft. Water in immediately following treatment.

New Nursery Material for Planting: Mix 32 fl. oz. **LESCO-Wet Plus** per 200 gallons of water. Drench holes or root balls before planting at a rate of 2-3 gallons per foot of ball or hole.

Increased Fertilizer and Pesticide Penetration: Add 8.0 to 16.0 Fl. oz. **LESCO-Wet Plus** to 100 gallons of spray mixture to increase thatch and soil penetration.

Nursery and Greenhouse Soil Mixes: Mix 4.0 fl. oz. of **LESCO-Wet Plus** in 5 Gallons of water. Add this amount to one cubic yard of soil mixture to aid in wetting capacity.

STORAGE AND DISPOSAL

Keep from freezing. Do not re-use empty container. Safety goggles are recommended when handling the concentrate. If product is spilled, contain and absorb with inert material. Dispose of in accordance with local, state, and federal regulations.

PRECAUTIONARY STATEMENTS

CAUTION: Avoid contact with eyes, skin and clothing. Use proper hygiene when handling. Impervious gloves and goggles/safety glasses/safety shield are recommended for use with the concentrate.

STATEMENT OF PRACTICAL TREATMENT

- Product causes eye irritation unless flushed immediately with water for 15 minutes. Seek medical attention.
- Do not take internally. If ingested, call physician or poison control center immediately.
- Avoid breathing vapor or spray. If inhaled, move user to fresh air and seek medical attention.
- If on skin, wash with soap and water. Remove contaminated clothing. If irritation persists, seek medical attention.

WARRANTY:

LESCO warrants that this product conforms to the analysis on its label. When used in accordance with label directions under normal conditions, is reasonably fit for its intended purposes. Since timing, method of application, weather, plant and soil conditions, mixture with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use.
