

FIFRA 2(ee) Recommendation

May 6, 2014

New York State Department
of Environmental Conservation
Division of Materials Management
Pesticide Product Registration

Classified for
"RESTRICTED USE"
in New York State
under 6NYCRR Part 326

Researcher and Title:

Mark Whitmore, Extension Associate, Department of Natural Resources, Cornell University.

Pesticide Name and EPA Registration No.:

Lesco Bandit 2F Insecticide, EPA Reg. No. 432-1312

Target Crop:

Tsuga canadensis, Eastern hemlock

Target Pest:

Adelges tsugae, Hemlock Woolly Adelgid

Proposed Application Rate:

0.1 to 0.2 fl oz (3 to 6 mL) per inch of trunk diameter (D.B.H.).

Nature of 2(ee) Variation from Product Label:

Method of Application: The current label only allows application as soil drench or soil injection for control of hemlock woolly adelgid. We would like to include basal bark spray as a method of application.

Complete Recommendation as it will Appear in the Cornell Guidelines:

Apply 0.1 to 0.2 fl oz (3 to 6 mL) of Lesco Bandit 2F Insecticide per inch of trunk diameter (D.B.H.) as a basal bark spray to control hemlock woolly adelgid in Eastern hemlock. The user must have a copy of the recommendation in their possession at the time of application.
